

# COVID 19 NEW WORKING HABITS

Keeping health and safety at the forefront for both you and us while we create your dream design. Here is what to expect.

## GOING ONLINE

### Video Consultations

We've actually been doing this for quiet a while! In 2019, 50% of our clients lived interstate or overseas. We have designed and styled homes for people we have never met face to face!

We have the expertise and experience to deliver your expectation through remote through remote consultations

## ONSITE

### Keeping it brief

During the course of our work we realise that it is not possible to conduct every activity from video. When on site we will be minimising our time for essential site check measurements or installation and have the following practices in place.

## BASE RULE

### Establishing the risk

Prior to making any site visits we will need to know.

Whether you or anyone in your household has symptoms, or has been at risk of contracting the Corona Virus or is currently in quarantine.

We too monitor our well being and will not conduct site visits if symptoms are evident.

## WASHING HANDS

### A New Routine

As part of our Design Tool Box, we now carry our own hand soap and handtowel and will request to wash our hands on entering your home, and again as we leave.

We may opt to wear a mask.

## KEEPING OUR DISTANCE

### 1.5m

With respect, we request that a distance is kept of 1.5 m as we conduct our consultation and site check measure.
